

## HAIBAZO - Entrance Test

### React

#### Tasks

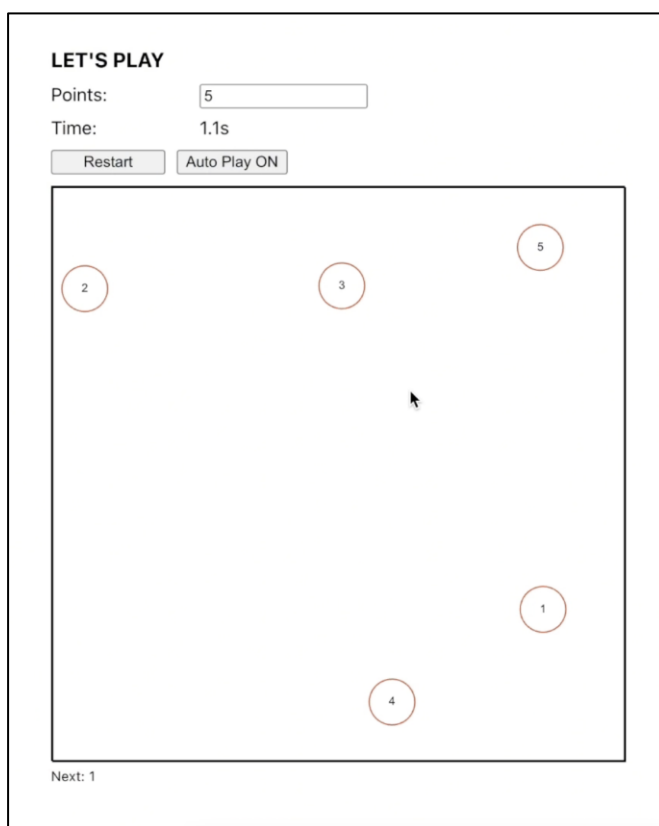

As a Frontend developer, your job is to analyze requirements from the gameplay video and execute the following tasks:

#### Tasks

1. Develop the game using React
2. Deploy your game to Vercel

#### Gameplay

[HAIBAZO React EntranceTest.mp4](#)

#### Notes

1. **ALL CLEARED** should display only when all points have disappeared completely
2. All 6 cases should be implemented correctly
3. You are welcome to be creative with your game

#### Output

##### Required

1. GitHub URL of your game
2. Vercel URL of your game
